

# MOTOR CARAVANNERS' CLUB CHILTERN GROUP

WASH UP FOR NEW YEAR RALLY

1ST JANUARY 2024 15:30PM

The many comments from members showed that the weekend was a great success, below are a few pointers for the next large rally.

1. **Parking** Someone needs to be in the area used for booking in to decide where to send vans when we have multiple parking areas. Phones could be used to assist.
2. **Marshalls.** Those parking up, need to be spread out in the different areas to make for easier parking.
3. **Marshalling Assistant.** When a large number of vans need to be parked, ask another member who is experienced in attending, to help with the parking. They could arrive at the site earlier.
4. **Labels.** Labelling of taps for drinking water and elsan should be made clearer, or if no tap for elsan members should be told to take a water bottle to use for washing out.
5. **Onsite Direction Signage.** Clear signage directing members to the hall should be put out, and if layout is known beforehand, a map attached when using multiple parking areas.
6. **First Night.** On the first night, we should consider whether or not to have professional entertainment, as members seem to be more interested in catching up.
7. **Drinks.** The selection and quantity of drinks offered upon arrival for the party went very well.
8. **Food allergies** Members should be asked to make clear to the staff serving the food that they have an allergy and have requested a special diet.

Chiltern members may make 2024 bookings from 5th of January.
